What Are Fairytales: Mindmap

This mindmap template can be used to explore the key elements of fairy tales (or learners can draw their own using the layout as a guide.) The mindmap can be started before work on fairy tales begins (as a way of gauging previous knowledge and understanding) then added to after a number of stories have been listened to read. The Character branch can be expanded to show good, evil and helper characters, giving examples and showing traits.

Suggested Curriculum for Excellence experiences and outcomes: LIT2-15a, LIT2-16a
